	Lumped element tunable filters HF, VHF, and UHF Band Pass filters . Netcom's experience includes the development of tunable filters, RF amplifiers, LC filters, and a diverse range of custom integrated assemblies. These products are used within systems throughout the world in military, aerospace, wireless, and medical applications
http://www.netcominc.com	
	Microwave and Millimeter wave products for commercial and military applications . Global leader of millimeter wave products and microwave, technology, components and assemblies. From custom designed systems to volume order production in the 5GHz to 325GHz spectrum.
http://www.miww.com	
	Global Positioning System Disciplined Oscillator (GPSDO) ; High performance synthesizers for military, space and ground applications ; Oven Controlled Crystal Oscillator (OCXO) performance to defense and aerospace .
http://www.mti-millire.com	

	Solid State Microwave Components . Leader in the design and manufacture of DC to 50 GHz Solid State Microwave Components. Our company is mainly dedicated to providing a wide line of high quality standard microwave components based on state-of-the-art technologies.
http://qpmw.com	
	Sylatech is leading UK based designer and manufacturer of passive waveguide assemblies. Our speciality includes the manufacture of Slotted waveguide antennas / assemblies, Monopulse Comparators, Custom Power Combiners / Dividers, Single and Dual Channel Waveguide Rotary Joints. We also manufacture cast waveguide bends specialising in thin-wall, light-weight bends and assemblies particularly useful to the space sector.

	Cable assemblies, coaxial cables and connectors, and well-known brands such as UTFLEX® flexible microwave cable assemblies, UTFORM® hand-formable cable, MFLEX® cable assemblies and ARACON® metal-clad fiber. These products can be found in Fighter Jets, UAVs, Guidance Systems, Radar Systems, Missiles, Satellites, WiFi Modems, Tablets and Test Equipment worldwide.

	Lightweight Telescopic and Tactical Masts . Full range of Communication and Tactical Masts. Made from lightweight composite, these products can be used for a range of applications.
www.cobham.com/mastsystems	

	Specialists in the design, engineering and manufacture of microwave antennas. Flat panel, sector, omni, hemi omni and ultra-wideband antennas. Used in locations as diverse as UAVs, helicopters, aircraft, missiles, race cars, railway systems, TV cameras, weather buoys and satellites. Applications include WLAN, Link16, Surveillance, Telemetry, Electronic News Gathering, WIMAX, Common Data Links and Radar.
www.european-antennas.co.uk	
	High performance, High quality GPS/GNSS antennas . Focused on high function, high performance technology and solutions. Our core competencies include digital wireless networks, RF and Global Navigation Satellite Systems (GNSS) component design.
http://www.tallysman.com	

	VHF/SHF wideband antennas for tactical communication, EW and spectrum monitoring applications . Omnidirectional VHF/UHF/SHF wideband antennas and accessories for mobile tactical communication, electronic warfare and spectrum monitoring applications
https://www.cojoy.com	

	Sat Terminals . "Satcube Ku" is a lightweight terminal that uses High Throughput Satellites to give you broadband connectivity almost anywhere on earth. An intuitive user interface makes operation as simple as using an iPhone. No engineers, no complexity. Online in under a minute.
http://www.satcube.com	
	Wide range of high-power travelling wave tube amplifiers (TWTA), redundant system controllers and sub-systems. We also offer a comprehensive range of solid state amplifiers (SSPA) providing small, lightweight, efficient power solutions covering all uplink frequencies.
http://www.space-path.com	

	RF and Microwave solid-state power amplifiers in frequency ranges from 1 MHz through 18.0 GHz, with output power levels ranging from 5 watts to over 30 kW. Standard and customized products are available in amplifier module building blocks and rack-mountable amplifier units.
https://www.comtechpst.com	
	RF over Fiber (RfO) Links for Satellite, Military, Iridium and GPS repeater solutions, Repeater solution re-radiates satellite/GPS signals indoors
https://www.foxcom.com	

	Radar Sensors . We design, produce and customize 24 GHz commercial Radar modules. Our strength is intelligent signal processing for application specific needs in standard and customized solutions. Attingimus' sensors are able to detect stationary or moving targets and measure their exact coordinates, including velocity, range, distance and angle of arrival.
http://www.atingimus.com	

	Quartz MEMS Gyroscopes, Accelerometers, IMU and GPS/INS . Systron Donner Inertial supplies the world's highest performance MEMS Inertial Sensors & Systems. Our quartz MEMS Gyroscopes, Accelerometers, Inertial Measurement Units and GPS/INS products deliver a clear, continuously improving SWaPC advantages over alternative technologies.
http://www.systron.com	

	Data Acquisition-Telemetry-Precision Timing-Test Systems for Aerospace, Defense, Energy, Industrial and Transportation Markets. MIL-STD-1533/IEPE/Real-Time FFT/CANopen/SAE J1939/NMEA2k/Voyage Recording/Metering/PMU/IRIG-106 Ch10/RCC-218
http://reachtest.com	

	Software-defined spectrum analyzers that monitor, detect and analyze complex waveforms in today's rapidly evolving wireless landscape. Built on patented technology and quality by design principles, the ThinkRF solution offers greater versatility, better performance and additional capabilities for 5G, signals intelligence (SIGINT), spectrum monitoring, technical surveillance countermeasures (TSCM) and test and measurement applications.
https://www.thinkrf.com	

	Environmental stress screening products for the commercial, automotive, aerospace and military electronics industries . We manufacture high precision standard products covering a wide range of thermally conductive and convective environmental stress screening applications for Microwave, Aerospace, Telecommunications, Military and Automotive components. These are hot/cold
